Michele Remer

LinkedIn | remermic@msu.edu

EDUCATION

Ph.D. Michigan State University, East Lansing, MI 2027 (Expected)

Department of Fisheries and Wildlife; Environmental Science and Policy Program

University Distinguished Fellow

NSF Graduate Research Fellow

Certificates in Progress: College Teaching, Community Engagement

B.A. Saint Mary's University of Minnesota, Winona, MN 2020

Environmental Biology, Zoology and Psychology Minors

Co-Valedictorian, Summa Cum Laude

Environmental Biology Thesis: Flea beetle (*Aphthona* spp.) abundances in leafy spurge-infested prescribed burn areas

Psychology Thesis: Influence of climate change education, attitudes, and actions on choice of diet

RESEARCH INTERESTS

Coupled human and natural systems, conservation biology, tourism/recreation, biological invasions

RESEARCH AND WORK EXPERIENCE

Graduate Research Assistant 2026-Present

Department of Community Sustainability at Michigan State University | East Lansing, MI

Collected data on visitor use at Nordhouse Dunes Wilderness Area. Currently writing a protocol for studying invasive species within a wilderness area. Co-facilitated visitor use workshops designed for the Michigan Department of Natural Resources.

University Distinguished Fellow and NSF Graduate Research Fellow 2022-Present

Department of Fisheries and Wildlife at Michigan State University | East Lansing, MI

Researching the potential for tourism and vessel traffic to introduce new species to the Arctic. Designed and distributed a survey to Alaska visitors. Presented results at multiple conferences and published results in peer-reviewed journals.

Demmer Scholar Program Intern 2022

Strategic Conservation Solutions | Washington, D.C.

Engaged in weekly field trips to understand natural resources policy. Improved business data analysis efficiency on top 20 agricultural producing states. Created over 20 research pieces to advance clients' conservation and sustainability policies.

Michele Remer

LinkedIn | remermic@msu.edu

Biological Science Technician 2021

U.S. Army Corps of Engineers | Riverdale, ND

Surveyed and sprayed 10+ land management areas for noxious weeds. Restored native prairie habitat around Lake Sakakawea. Developed and conveyed plans for surveying and spraying with three coworkers.

Conservation Corps Member 2020-2021

American Conservation Experience **|** *Hurricane, UT*

Planted 36,000 plants and trees to restore coastal sand dunes and bird habitat as a crew member. Identified and removed 3 invasive species along the Virgin River to promote stream morphology. Developed mountain biking trails to improve sustainability and reduce erosion.

GIS Technician 2019-2020

GeoSpatial Services | Winona, MN

Created over 1,000 digital lines and polygons using collateral data. Analyzed 100+ aerial photos to define channel boundaries for 4 Alaskan watersheds. Collaborated with National Park Service to ortho-rectify photographs in Alaska.

Writing Tutor 2019-2020

Saint Mary's University of Minnesota Writing Studio | Winona, MN

Mentored fellow students to improve their writing skills. Encouraged students to use library and citation resources. Coached students to recognize mistakes on their own. Received training every other week to improve tutoring abilities.

Independent Student Researcher (Biology) 2019-2020

Saint Mary's University of Minnesota **|** *Winona, MN*

Analyzed prescribed burning and distribution of flea beetles to control leafy spurge populations in Trempealeau National Wildlife Refuge. Collaborated with refuge staff to complete data collection of flea beetles within the refuge.

Independent Student Researcher (Psychology) 2020

Saint Mary's University of Minnesota | Winona, MN

Facilitated survey administration on participants' views on climate change, science education, and diet choices. Collected data by obtaining implied consent, processing survey materials, and managing participant signups in a remote setting.

Michele Remer

LinkedIn | remermic@msu.edu

Summer Science Intern 2018

Saint Mary's University of Minnesota | Winona, MN

Gathered data and analyzed 6 water quality parameters to determine watershed health across two different lakes and one stream. Utilized the following equipment to assess water quality: spectrophotometer, turbidity meter, centrifuge, pH meter, conductivity meter, micro-digester, micro-pipettes. Presented findings to the Healthy Lake Winona Committee.

Park Ranger 2017

Turtle River State Park | Arvilla, ND

Furthered outdoor interpreting programs with 25% of children and families present in the park to educate them on safety, species diversity, and Leave No Trace policies. Directed over 100 visitors to park resources in person and on the phone. Inspected trails and cleaned over 10 pounds of trash to protect wildlife and ensure enjoyment of the park for other visitors.

TEACHING

Teaching Assistant 2026
International Summer School on Geography and Sustainability 2026 | Beijing, China

Delivered lectures, designed in-class curriculum, reviewed research proposals, mentored research teams, and designed and delivered a pre and post-survey to improve the summer school for future participants.

Workshop Facilitator 2026
International Association of Landscape Ecology Conference 2026 | Athens, GA

Delivered workshop materials, designed workshop curriculum, facilitated small group discussions, and organized workshop meetings for a diverse international audience.

Michele Remer

LinkedIn | remermic@msu.edu

Teaching Volunteer 2022
Water Festival | Grand Forks, ND

Taught 12 different fourth grade classes about capillary action.

Coach 2018, 2019
Beyond Sports Tour | Cape Town, South Africa, Junior Cardinals | Winona, MN

Coached elementary age players in basketball fundamentals.
